friendly, hospitable and polite. They are cosmopolitan in their thinking and actions which is a characteristic not often met within areas of comparable size. They possess a spirit which has built this section of North Carolina to a point where it challenges the best efforts of honest, industrious, and enlightened men and women of all sections of the United States.

Progress here has never been marked by what is known as a "boom". The people here have chosen to build on solid and sure foundations. The gains they have made are substantial. They have consolidated these gains and organized their efforts. The thought of turning back does not present itself. Nor is the area going forward blindly and without taking stock as it goes along.

Henderson County was formed in 1838 from Buncombe and named in honor of Leonard Henderson (1772-1833) Chief Justice of the Supreme Court of North Carolina. Hendersonville, county seat was settled in 1841 and incorporated in 1847. Flat Rock, south of Hendersonville, said to be the oldest summer resort in Western North Carolina, was developed after 1812.

Henderson is called a typical mountain county, because it consists of all these elements. mountain ranges, isolated peaks, a rolling plateau and level valley areas. Elevations range from 1,400 feet near Bat Cave at the foot of the Blue Ridge Mountains to 5,000 feet on Little Pisgah.

Henderson is almost circled with mountains. On the west, the county touches the Pisgah Ledge, and the eastern and southern boundaries coincide roughly with the Blue Ridge and Saluda Mountains. The sides of Henderson's mountains are usually steep and those around Bat Cave are stony and perpendicular.

One of the first recorded industries was an iron works on what is now called Forge Mountain, which supplied precious loops and bars from 1804 up through the Civil War. Clay in the vicinity of Fletcher inspired a brick plant. Modern industry got its start with the establishment of Green River (cotton) Mills, Inc., at Tuxedo, in 1907 by J. O. Bell.

The Freeze Hosiery Mills opened in 1912, and the Skyland Hosiery Company came to East Flat Rock. Other textile mills followed, including the Balfour Mills, now Berkeley Mills, Inc.

Right after World War II, textile industries were increased by addition of Cranston Print Works Company, Belding-Corticelli (makers of synthetic thread), Mountain Top Company, Standard Tytape Company, Mountain Rug Company, and Ruth Originals Corporation. The Berkeley Mills underwent a multi-million dollar expansion. In addition, the county obtained the Robotyper Corporation, maker of an automatic typewriter, Select Foods, Inc., Bond Bread, and most recently, the outdoor lighting department of the General Electric Company.

THE CITY DIRECTORY

The Modern Up-To-Date Method of Getting Accurate Information Quickly

A TIME SAVER — A MONEY MAKER FOR EVERY BUSINESS

LET US SHOW YOU HOW

This Publication is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and directory of buyer and seller.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

(*)—Purpose of star (*) in front of name is generally used to denote colored person or firm, but its use is so varied that we assume no responsibility for errors or the wrong use of same.
